

Difa Hafidzuddin

Frontend Developer

Jakarta, Indonesia • [+6288214778084](tel:+6288214778084) • [LinkedIn](#) / [Website](#) / [Github](#) • difahafidzuddin0210@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building production-grade enterprise web and mobile applications. Contributed to **Permata eBusiness**, a real-world corporate banking platform serving enterprise clients. Focused on clean architecture, role-based UI systems, and high-performance interfaces for complex business workflows. Experienced across React, Next.js, React Native, and Flutter – from component design to deployment.

WORK EXPERIENCE

PT. Alpabit Digital Inovasi ([Alpabit Digital Inovasi](#))

Frontend Developer

South Tangerang, Indonesia

October 2022 - Present

- Contributed to frontend development of **Permata eBusiness**, a corporate e-banking platform used by enterprise clients – delivering interfaces for transfers, approval workflows, and multi-role account management.
- Built and maintained complex frontend systems using **React** (web), **React Native**, and **Flutter** across multiple products, adapting architecture to platform-specific constraints.
- Architected reusable component libraries and layout systems ensuring UI consistency and accelerated feature delivery across multiple applications.
- Implemented role-based UI rendering and route-level access control across multi-level user hierarchies in corporate banking workflows.
- Optimized rendering performance on data-heavy screens including transaction dashboards, approval forms, and analytical views.
- Participated in CI/CD deployment cycles and QA processes, validating critical user flows and minimizing production UI regressions.

PT. Kala Bhairawa Tantra (Matakala)

Programmer

Bekasi, Indonesia

March 2022 - August 2022

- Supported frontend-backend integration by aligning API contracts with UI requirements.
- Collaborated with UI/UX designers to define API requirements and ensure seamless integration between frontend applications and backend services.
- Translated complex business requirements into technical specifications, contributing to the architectural design and implementation of new features.

PROJECTS

Talentara (talentara.vercel.app)

- Built a full-featured B2B headhunting platform from scratch with 4 distinct user roles (superadmin, admin maker, admin checker, consultant) and end-to-end recruitment lifecycle management.
- Architected frontend state management using React Context and modular custom hooks, supporting complex candidate and project workflows.
- Implemented route-level access control, role-based UI rendering, and full CRUD across clients, projects, candidates, and consultant management modules.

Personal Website (hafidzuddin.my.id)

- Developed a personal website to showcase projects and experiences, featuring a collection of personal projects and designs, built using **Next.Js**

EDUCATION

Bootcamp Dumbways.id

Fullstack Javascript

South Tangerang, Indonesia

Jan 2022 - March 2022

- Concentration in Fullstack Javascript

SKILLS & INTERESTS

Programming Language: Typescript (Advanced), Javascript (Advanced), Python (*Basic*)

Frontend: ReactJs, NextJs, React Native, Flutter, CSS, SCSS/SASS, Tailwind, Bootstrap, Vue, Svelte

Tools & Workflow: Git, GitHub Actions, Figma, Jest, Vite, Webpack

Interests: Eager to exploring technology trends, and participating in tech community.
